Report of Principal and School Improvement Council

School year 2013 – 2014 was a year of self-examination and determination of strategic goals for the next five years. We believe that it is our collective responsibility to establish a strong instructional program as a foundation for your child's development as a student, and a self-directed learner. In review of our school and district data to state and national goals, we have established targets for academic growth, staff development, and parent education. Results of a parent survey indicated high levels of satisfaction with our morning enrichment program, and suggestions for the development of additional opportunities in the area of second language instruction for our students in the years to come. As a faculty we have reviewed school data to identify areas of strength, and needed growth.

Longitudinal data on our school's PASS scores indicates steady growth in the area of English Language Arts in grades, 3, 4 and 5. In Math students demonstrate continued growth in grades 3 and 5. Science scores indicate growth in all grades. Students' scores in social studies have declined. We are reviewing our content strands and levels of difficulty across all content areas. Our state report card rating, growth rating and report card designation are in the good range, a strong B rating of 88.1 .

Our school has developed a strong focus in Science, Leadership, Arts, Technology, and Engineering (SLATE), a program that guides students through academic standards (language arts, math, science, social studies, physical education and the arts), while engaging in increased STEM rigor, depth and application of content, and integrated learning. Our curriculum is enhanced by engineering units, specialty classes, field studies, and project-based learning activities. Our inquiry-based pedagogy is designed for diverse elementary students to thrive in new and exciting ways, all with the goal of engaging, inspiring and empowering them to become the leaders of tomorrow.

Over the past two years, the vision for SLATE education at Michael C. Riley has been to afford students the opportunity to develop problem-solving skills and strategies that will help them to adapt and succeed not only in STEM-related professions, but in their everyday lives. By integrating STEM activities, fine arts, and leadership skills into our curriculum, we are challenging children to imagine, create, and communicate in new and valuable ways. Such tasks encourage the development of abstract and divergent thinking, meaningful questioning, and collaboration.

In the area of leadership, our fifth grade boys and girls participated in focus groups during their lunch and recess once a week to examine and implement characteristics of G.R.E.A.T. Girls and the Riley Gentleman's Club. These groups were supported by author Rhonda Mincey, for our girls, and behavior management specialist Mr. Bryant Kitty. Both groups were met with enthusiasm by students.

We find that students need assistance in developing good work habits to complete homework assignments and projects on time. Not doing so can adversely affect their grades. We have provided an early morning homework support program, and continue to evaluate ways we can link home and school. As we revise our Title One Plan for next year, we plan to include a component for parents to participate in an afternoon homework center with their child. Side by side learning helps all of us deepen understanding.

Thank you for your support, contributions, and suggestions!

Sincerely,

Adrienne Sutto, Principal

ESEA/Federal Accountability Rating System

In July 2013, the South Carolina Department of Education was granted a waiver from several accountability requirements of the Federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/esea/> or request this information from your child's district or school.

Overall Weighted Points Total	84.8
Overall Grade Conversion	B

Index Score	Grade	Description
90-100	A	Performance substantially exceeds the state's expectations.
80-89.9	B	Performance exceeds the state's expectations.
70-79.9	C	Performance meets the state's expectations.
60-69.9	D	Performance does not meet the state's expectations.
Less than 60	F	Performance is substantially below the states' expectations.

Accountability Indicator (Title I Schools)

Michael C. Riley Elementary and Early Childhood Center has been designated as a:

	Title I Reward School for Performance - among the highest performing Title I schools in a given year.
	Title I Reward School for Progress - one of the schools with substantial progress in school subgroups.
X	Title I Focus School - one of the schools with the highest average performance gap between subgroups.
	Title I Priority School - one of the 5% lowest performing Title I schools.
	Title I School - does not qualify as Reward, Focus or Priority School.
	Non-Title I School - therefore the designations above are not applicable.
